# Hire Service

## General Information

**At Safety Monitors Limited we understand sometimes requirements can be transient and don't require a long term investment in equipment.**

We are pleased to provide a comprehensive range of instrumentation from our manufacturing partners at extremely competitive rates.

We hire fully serviced and calibrated instruments usually ready for a next day delivery covering a broad range of requirements.

Instruments are available for as little as 1 day\* and can be hired for as long as you require them with a range of discounts available for longer hire periods.

We are constantly updating our hire fleet to add the newest technologies available in the market. We also routinely invest to provide you more availability. However, the more notice you can provide us with the more likely we are able to guarantee you the equipment you need.

Our instruments ship to you via UPS and with prior arrangement can include collection from you at a small cost.

Our instruments are serviced and calibrated before shipping to you so you can be assured of the highest quality instrumentation on your site when you need it.

If for some reason you do run into problems we will provide you with a replacement instrument as soon as practically possible to alleviate any downtime and are available 24 hours a day to take your calls for safety critical assistance.

### **Discounted Rates:**

2 -4 Weeks/ Units: 5%  
4-6 Weeks/ Units 10%  
6-10 Weeks/ Units: 15%  
10+ Weeks/ Units: 20%

**\*minimum 3 days hire to include 24 hour shipping to and from site. Please call us for single day hire options.**

# General

## Pricing

All prices are based on a one week hire and excluding VAT and shipping.

### Gas Detection

<b>Standard 4 Gas (LEL, O2, CO and H2S)</b>	<b>£10</b>
<b>VOC Monitors (Photo Ionisation Detectors)</b>	<b>£85</b>
<b>Multigas Monitors (1-6 gas)</b>	<b>£85</b>
<b>Area Gas Monitors</b>	<b>£250</b>

### Dust and Air Quality

<b>Personal Direct Reading</b>	<b>£250</b>
<b>Handheld Multi-Fraction</b>	<b>£250</b>
<b>Environmental Multi-Fraction (MCerts)</b>	<b>£500</b>

### Vibration

<b>Hand Arm Vibration</b>	<b>£250</b>
<b>+ WBV</b>	<b>£90</b>
<b>Ground and Building</b>	<b>£300</b>

### Sound and Noise

<b>Type I (Including Frequency Analysis)</b>	<b>£250</b>
<b>Environmental Kits (Short Term)</b>	<b>£55</b>

# Advanced Systems

**Our advanced measurement systems provide the next level in on-site monitoring**

## • EDC

With EDC you can include options for up to three of the below parameters:

- Dust and Particulates (Total Dust, PM1, PM2.5, PM10)
- Volatile Organic Compounds (VOCs)
- Gas Levels (Including CO<sub>2</sub>, CO, NO, NO<sub>2</sub>, O<sub>2</sub> and more!)
- Noise and Sound (including frequency if required)

**£500\***

Per Week

## • X-PID

The Dräger X-PID offers selective multigas detection with a combination of Gas Chromatography and Photo Ionisation Detection. This makes the X-PID ideal in real-world environments where gas threats virtually never come alone. Also, it allows for short test times and laboratory-quality results.

**£1,400**

Per Week

## • WISPI Wireless Spider

The Wireless Spider 2 is delivered turn-key. And when we say "turn-key" that is exactly what we mean. The system is fully configured and programmed delivery to suit your application.

**POA**

Per Week

Gas Range:

(CO) 1 - 2000 ppm, Hydrogen Sulphide (H<sub>2</sub>S), Sulfur Dioxide (SO<sub>2</sub>) 0.1 - 20 ppm, Oxygen (O<sub>2</sub>) 0 - 25%, Ammonia (NH<sub>3</sub>) 0 - 100 ppm, Chlorine (Cl<sub>2</sub>) 0 - 50 ppm, Combustible Gases (LEL) 0 - 100% LEL, Combustibles IR (LEL) 0 - 100% LEL

# Company

# Information

**“We believe our work should enrich our lives not cost them”**

**- Alex Graft (Managing Director)**

# 91%

**Our overall customer satisfaction rating for 2019.**

**\*Based on 1295 customer feedback requests when asked a satisfaction level from 0-100**

Established in early 2017 Safety Monitors has quickly grown to become one of the more established names in instrumentation. Our founder Alex Graft began the company with a singular vision to improve the way we provide solutions to clients. Our aim is to bring old fashioned customer service into the modern age and focussing entirely on the customer experience and need. Our driving force is to reduce the risk of dangerous environments to people from their work.

Safety Monitors are specialists in Safety, Health and Environmental monitoring instrumentation. We are BS EN ISO9001:2015 Certified and proud members of the British Safety Industry Federation (BSIF) Registered Safety Supplier Scheme, the British Safety Council (BSC), the British Occupational Hygiene Society (BOHS) and the Chartered Institute of Environmental Health (CIEH).

In our short time we have worked with the likes of Shell, National Grid and the Ministry of Defence as well as independent consultancies, aiding them in taking the next steps in the health, safety and environmental journey.

So why not join over 1000 customers who are leading the way in our mission to eliminate the 2.8 million annual premature deaths from work and help us take on the challenge of improving safety culture for the next generation.

You can call us today to book your hire, service or just to find out more about our solutions on:

# Client Feedback

See what our clients have to say about us.

**“Safety Monitors were so friendly and helpful. The service was impeccable and they soon got our gas monitors back to us. Nothing was too much effort and I will certainly be using them again in the future”**

**Jo Longworth**

**“Great service and very friendly staff, they delivered our product down to us by their own transport as we needed the goods urgently, I highly recommend them”**

**Dave Figgins**

**“Professional and great service provided, regarding our safety monitor equipment! We really appreciate here at Mulroy Environmental”**

**Shannon Dixon**
